 ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger 	JS Console odules oackage json
✓ Advantages of Node JS Session 2: Setup Development Environment ✓ Install Node.js on Windows ✓ Working in REPL, Node Session 3: Node JS Modules ✓ Functions, Buffer, Module ✓ Modules Types ✓ Modules Types ✓ What is NPM, Installing Packages Locally ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Creating Web Server ✓ Creating Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Core Node JS Debugger	JS Console odules oackage json
Session 2: Setup Development Environment ✓ Install Node.js on Windows Session 3: Node JS Modules ✓ Functions, Buffer, Module ✓ Modules Types Session 4: Node Package Manager ✓ What is NPM, Installing Packages Locally ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Creating Web Server ✓ Creating Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	JS Console odules oackage json
✓ Install Node.js on Windows Session 3: Node JS Modules ✓ Functions, Buffer, Module ✓ Modules Types ✓ Modules Exports Session 4: Node Package Manager ✓ What is NPM, Installing Packages Locally ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	odules package json
Session 3: Node JS Modules ✓ Functions, Buffer, Module ✓ Modules Types Session 4: Node Package Manager ✓ What is NPM, Installing Packages Locally ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Core Node JS Debugger	odules package json
Functions, Buffer, Module ✓ Modules Types Session 4: Node Package Manager ✓ What is NPM, Installing Packages Locally ✓ Installing package globally Session 5: Creating Web Server ✓ Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	oackage json
✓ Modules Types ✓ Modules Exports Session 4: Node Package Manager ✓ Adding dependency in ✓ What is NPM, Installing Packages Locally ✓ Adding dependency in ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Handling http requests ✓ Sending Requests ✓ Writing a file asynchror ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	oackage json
Session 4: Node Package Manager ✓ What is NPM, Installing Packages Locally ✓ Installing package globally Session 5: Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Core Node JS Debugger	
 ✓ What is NPM, Installing Packages Locally ✓ Installing package globally ✓ Updating packages Session 5: Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger 	
✓ Installing package globally Session 5: Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	
Session 5: Creating Web Server ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	ously
 ✓ Creating Web Server ✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger 	ously
✓ Sending Requests Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application	ously
Session 6: File System ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	ously
 ✓ Fs.readFile, Writing a File ✓ Opening a file, Deleting a file ✓ Other IO Operations Session 7: Debugging Node JS Application ✓ Core Node JS Debugger 	ously
 ✓ Opening a file, Deleting a file ✓ Other IO Operations ✓ Session 7: Debugging Node JS Application ✓ Core Node JS Debugger 	ously
Session 7: Debugging Node JS Application ✓ Core Node JS Debugger	
✓ Core Node JS Debugger	
Session 8: Events	
✓ Event Emitter class ✓ Returning event emitte	r
✓ Inheriting Events	
Session 9: Express JS	
✓ Configuring Routes ✓ Working with Express	
Session 10: Serving Static Resources	
✓ Serving Static Files ✓ Working with Middle W	/are
Session 11: Database Connectivity	
✓ Connecting String, Configuring ✓ Working with Select Co	mmand
✓ Updating Records ✓ Deleting Records	
Session 12: Project Development	
✓ Project Development using Node JS
